

- 3 x Low triboelectric noise cable
- Sleeved for piezoelectric triaxial accelerometers
- Min 96% Screened coaxial cable
- PFA Jacket -90°C to +260°C range
- Blue jacket colour with Low Noise labelling
- PET flexible cable sleeve -50°C to +160°C range
- Black colour sleeving
- 3 x 10/32UNF Microdot to 3x10/32UNF Microdot
- Labelled X, Y, Z and colour coded
- Length 60m±5%

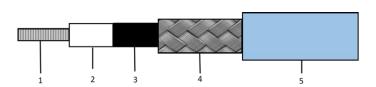

Kemo Ltd has been making high quality signal conditioning equipment since 1965 and during this time we have worked with many of the World's largest companies and witnessed many examples of poor-quality instrumentation cables. To resolve this problem Kemo started to produce its own specialist cable assemblies for the sensor and instrumentation market.

The low noise cables we produce are assembled by Kemo using the highest quality cable and connectors that meet our exacting standards.

This triaxial low noise cable assembly is designed for use with piezoelectric triaxial accelerometers featuring 3 x 10/32UNF microdot output connectors. The three low triboelectric noise cables are sleeved together for protection and ease of handling.

Sleeve/Cable joint is protected by rubber sleeving.

Each cable is colour coded and labelled for X, Y and Z axis. RED = X axis YELLOW = Y Axis WHITE = Z axis

| 10/32UNF microdot connector |                     |  |  |
|-----------------------------|---------------------|--|--|
| Physical                    | Value               |  |  |
| Body                        | Nickel Plated Brass |  |  |
| Knurl nut                   | Nickel Plated Brass |  |  |
| Centre Conductor            | Gold plated brass   |  |  |
| Insulator                   | PEEK                |  |  |
| Strain relief boot          | Rubber              |  |  |
| Temperature Range           | -70°C to +260°C     |  |  |

| Cable Electrical Properties | Value           |  |
|-----------------------------|-----------------|--|
| Impedance                   | 50 ±2Ω          |  |
| Max. Capacitance            | 105nF/km        |  |
| Max. Conductor Resistance   | 355Ω/km         |  |
| Min. Insulation Resistance  | >5000 MΩ/km     |  |
| Voltage rating              | 500VAC          |  |
| Test voltage                | 3kV DC          |  |
| Max. Attenuation            | 108dB/100m      |  |
| Temp rating                 | -90°C to +260°C |  |
| Min Bending radius          | Fixed: 10mm     |  |
| Min Bending radius          | Flexing: 20mm   |  |

| Layer | Description                       | Material   | Overall diameter |
|-------|-----------------------------------|--|------------------|
| 1     | Central conductor – multi strand  | Silver plated high strength copper 30AWG (7/0.102mm) | 0.30mm           |
| 2     | Dielectric/Insulation             | PTFE   | 0.85mm ±0.05mm   |
| 3     | Low noise semi conductive coating |  |                  |
| 4     | Screen/Outer conductor            | Silver Plated Copper Braid 96% coverage              | 1.35mm           |
| 5     | Outer jacket                      | Blue PFA   | 2mm nom.         |
